Conor Deasy is releasing his debut album, as Biggles Flys Again, on March 30th when it will be available on both limited edition hand-sewn cd booklet and download. 'Remember Saturday' marks the culmination of recording sessions that took place across various recording spaces throughout Dublin over the last year. It follows Biggles Flys Again's previous 2 releases, 'Summer's Coming Soon' single and 'Chocks Away' EP, which are both available on [bandcamp](#).

With 'Remember Saturday' Deasy set out to make a pop album with traditional values and he didn't leave anything to chance as many of the instruments used during the recording were of the antique variety. Allied to the BBC Neve recording desk, Hammond organ and Yamaha keyboards was a keen pop sensibility which has drawn comparisons to modern day bards like Badly Drawn Boy and more vintage mavericks such as Brian Wilson. And while 'Remember Saturday' might wear its influences on its sleeve it casts a contemporary light on the art of melody through a rich sound.

The first single from 'Remember Saturday', 'Friends' has picked up lots of praise from the likes of [Nialler9](#), [A New Band A Day](#) and [Barry Gruff](#) who have all commented on its pop nous. Both '[Friends](#)' and the slightly more experimental '[Chambers](#)' are being given away as **free downloads** so please feel free to use them in your mentions of the album.

*'Remember Saturday' is available to the press to listen/download immediately so email me@huggerpr.com for the necessary links. **Conor from Biggles Flys Again** is also available for interviews and bookings so please use the same address to make arrangements.*
